### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art does not teach or fairly suggest an IS machine as claimed with first and second displacement means as claimed in addition to cooling means supplying cooling air to can means enclosing the gripped bottle at the deadplate means and from the deadplate location until the gripped bottle is displaced from the conveyor location to the deposit location as claimed. It would not have been obvious to modify the displacement means and cooling means of the prior art IS machine elements as such.
